BEARING DEVICE ASSEMBLY, COVERED BRIDGE

**\*\*From Rockingham BHO 1442(34)**

- xx. DESCRIPTION. This work shall consist of furnishing and installing bearing devices on a covered bridge as detailed in the Plans.

The work under this Section shall be performed in accordance with these provisions, the Plans, and Section 531 of the Standard Specifications, with the exception that the provisions of Subsection 531.03 do not apply.

- xx. METHOD OF MEASUREMENT. The quantity of Special Provision (Bearing Device Assembly, Covered Bridge) to be measured for payment will be the number of units used in the complete and accepted work. Bearing device materials, including anchor bolt assemblies, will be included as part of the measured unit. Anchor bolt assemblies include all bolts, threaded rods, nuts, washers, plates, drilling, and grouting required for attachment of bearing devices to the superstructure and substructure.

Timber members adjacent to bridge bearing areas, including but not limited to bolster beams, bedding timbers, and shims, will be measured and paid for separately under the appropriate Section 522 item(s) in the Contract.

- xx. BASIS OF PAYMENT. The accepted quantity of Special Provision (Bearing Device Assembly, Covered Bridge) will be paid for at the Contract unit price for each. Payment will be full compensation for detailing, furnishing, handling, transporting, and placing the materials specified, and for furnishing all labor, tools, equipment, and incidentals necessary to complete the work.

Payment will be made under:

<u>Pay Item</u>	<u>Pay Unit</u>
900.620 Special Provision (Bearing Device Assembly, Covered Bridge)	Each
