

INSTALL BEARING DEVICE ASSEMBLY

****From Richmond BHF 0209(6)**

- xx. DESCRIPTION. This work shall consist of installing bearing device assemblies, provided by the Agency, at the locations indicated on the Plans and as directed by the Engineer.

The work under this Section shall be performed in accordance with these provisions, the Plans, and Section 531 of the Standard Specifications.

- xx. MATERIALS. The Agency will supply the prefabricated bearing device assemblies to include preformed fabric pads, steel plates, anchor bolts, nuts, and washers.

Shims, if required, shall be supplied by the Contractor.

- xx. METHOD OF MEASUREMENT. The quantity of Special Provision (Install Bearing Device Assembly) to be measured for payment will be the number of bearing device assemblies installed in the complete and accepted work.

- xx. BASIS OF PAYMENT. The accepted quantity of Special Provision (Install Bearing Device Assembly) will be paid for at the Contract unit price per each. Payment will be full compensation for loading, transporting, and installing the Agency supplied materials specified; partial removal and modification to existing bearings; preparing concrete surfaces; protective coatings; mortar; welding; supplying shims where required; installing anchor bolts; and for furnishing all labor, tools, equipment, and incidentals necessary to complete the work.

Payment will be made under:

<u>Pay Item</u>	<u>Pay Unit</u>
900.620 Special Provision (Install Bearing Device Assembly)	Each
