

MANHOLE WITH DIVERSION WEIR

****From Barre City FEGC F 026-1(34) C/2**

xx. DESCRIPTION. This work shall consist of furnishing and installing a precast reinforced concrete manhole with a cast iron cover and a diversion weir as shown in the Plans and as directed by the Engineer.

The work under this Section shall be performed in accordance with these provisions, the Plans, and Sections 541 and 604 of the Standard Specifications.

xx. MATERIALS. Materials shall be furnished at the sizes and to the configurations shown in the Plans.

(a) Manhole. Manhole shall meet the requirements of Section 604 for Precast Reinforced Concrete Manhole with Cast Iron Cover.

(b) Diversion Weir. Diversion weir shall meet the requirements of Section 541 for Concrete, Class B.

xx. METHOD OF MEASUREMENT. The quantity of Special Provision (Precast Reinforced Concrete Manhole with Cast Iron Cover and Diversion Weir) of the size specified to be measured for payment will be the number of each unit installed in the complete and accepted work.

xx. BASIS OF PAYMENT. The accepted quantity of Special Provision (Precast Reinforced Concrete Manhole with Cast Iron Cover and Diversion Weir) of the size specified will be paid for at the Contract unit price per each. Payment will be full compensation for furnishing, transporting, handling, and placing the materials specified, including concrete, concrete risers, top sections, reinforcing steel, steps, mortar, brick, frames, grates, covers, coatings, pipestubs, weep holes, underdrain ends, curb board, and bituminous fillets; and for furnishing all labor, tools, equipment, and incidentals necessary to complete the work.

Excavation for Special Provision (Precast Reinforced Concrete Manhole with Cast Iron Cover and Diversion Weir) will be paid for as Trench Excavation of Earth or Trench Excavation of Rock, as appropriate.

Payment will be made under:
